

How to Insert TF Card

Remove the two screws on the speaker cover and you will find the TF card slot of the camera.

Download and Install the XMEye App

Scan the QR code below to download the "XMEye" app or search "XMEye" in App Store or Google Play to download it. When you install it, please allow all the authorizations if you want full functions and alarm push notifications.

After installing the app on your smart phones, you can register an account in it and start adding your WiFi camera.

Before adding, please ensure your Smart phone is connected to the same WiFi router you want to connect your WiFi camera to. Keep the camera and your smart phone nearby the router.

Power on the camera with the power adapter and the camera will begin WiFi and initialization mode.

1. Click the "+" in the upper right corner

2. Click the **"Quick Configuration"** tab in page to enter the WiFi configuration interface. Input the WiFi password, tick the "Done" button according to the tips. 3. Tips will show green, Tick the boxes and then click "Complete all of the above actions" to scan.

Device List Device List	Add Device	Add Device
	Manually Add Duick Configuration	Manually Add Quick Configuration
	Device Name:	Wi-Fi: XM ipcjufeng2015
	admin	
	Pessword	Ensure the indicator Done
	Port	Make industor Light Binking Slowly Try to make sure the distance among the device, phone and the router within 2m.
	OK Cancel	Device operation
		Long time press the SLT burble until the instruction than guidely. Part of products are needed to plug hole configuration by thimble.
	Q	Complete all of the above actions
Start Preview0		

4. It may take few seconds and then will show the green monitoring device equipment mark, click it to add device then click **"OK"**
