User Manual

AHD Technology - Analog High Definition (AHD) uses 4-Pin cable to transmit HD video from 720P AHD Camera to 720P AHD monitor with better anti-inference, non-distorted signal transferring for long and larger vehicles like Trucks, Trailers, Buses, RV's, campers etc.

High Definition 720P crystal clear screen that can provide more vivid, sharper and brighter display. The advanced algorithms detect even the subtlest shades providing the best vibrant color possible. AHD Camera features 720P CCD Sensor with 18pcs IR LED lights providing a perfect view when the light is low or even on darkest night (black and white) to guarantee safe driving.

Specifications:
7 inch AHD vehicle mounted display
Back Light Luminance : LED,400cd/㎡
AV Resolution: 720P
2 Channel HD video input, single image display, support 720P@25/30, 960P@50/60, 1080P@25/30
Automatically switch to V2 when reversing
Power supply: DC 9V-36V input
U shape bracket
Image sensor: 720P CCD sensor Camera
Effective Pixel: NTSC/PAL 1280(H)*720(V) 130W

Package Included:

1x 7" 720P AHD Monitor
1x 720P AHD Camera
2x 10m 4PIN Cable
1x U-shape Metal Bracket
1x Sunshade
1x Power cord
4x Screws
1x User Manual
