10. Do not use adapters above 2A for charging;
11. When the dust in the dust collection bin exceeds 50%, please clean it up in time. Otherwise, it will affect the normal use of the machine.

Usage Method :

Start the car

Put the power cord into cigarette lighter socket

Press the Start Switch.
(Rechargeable version: Long press the power switch to wake up the vacuum cleaner)

Align the suction port of the running machine to the surface of the object to be cleaned, and change different accessories according to different occasions.

*For rechargeable vacuum cleaner, please ignore the step 1 and step 2. Start from step 3 after fully charged.

Cleaning and Maintenance:

Please clean up in time, otherwise it will affect the normal use of the machine.

Press the dust bin switch and take off the dust bin.

According to the direction of picture shown, hold the dust bin and take out the filter.

Pour out the trash from the dust bin.

Wash the filter and dust bin, use it after drying.
Please make sure that the filter is completely air-dried.

Two Gear Technology:

Two gear suction technology is adopted in vacuum cleaner. Press the power switch one time for regular suction... It fits to clean debris, dust, etc. on flat surface. Press the power switch twice for enhanced suction. It is more suitable for cleaning the hair on carpets, dust or dust in hard-to-reach corners.
