Have no vibration appearing with the sound phenomenon.	<ul style="list-style-type: none"> <li>The CD is dirty or damaged, Please clean or replace the CD.</li> </ul>

## OPERATION MANUAL

### Cautions:

1. Keep the machine from rain or damp to avoid fire and electric shock.
2. Do not try to repair the device by yourself. Please switch off the machine immediately and inform our factory or dealers if there's any problem. This product is comprised of many electronic components. Disassembling or self-renovating without a professional guidance can cause machine damage.
3. Do not expose machine to moisture, dust, vapour, oil smog, direct sunlight or influential environment.
4. Do not use thinner or other chemical detergents in cleaning the machine. Use a soft cloth to remove dust or dirt on the machine.
5. Keep the machine away from very cold or very hot temperature environments. Note: the machine's storage temperature ranges - 10 degrees Celsius ~ 60 degrees Celsius and its operating temperature is 0 degrees Celsius ~ 40 degrees Celsius.
6. Only play compatible Discs. This machine can only play DVD/CD-R/CD-RW/SVCD/VCD/DVCD/CD/MP3/MP4/JPEGS, receive TV signal with built it tuner.
7. Avoid dropping or large impact to the machine.
8. For your safety, do not turn on/ watch or operate the machine while driving. In some countries and regions it's against the law.
9. Safe power supply : DC 12V(10V-14V)

### Attention:

There maybe a few bright or dark spots on the screen when it plays which is a very common phenomenon in active matrix display technology. It does not indicate any fault or problem.
